

Tube Diffuser

Features:

1. We manufacture our JTD series tube diffuser with compression molded EPDM membranes to avoid ultraviolet degradation or chemical corruption.
2. Our tube are designed for maximal strength at a minimum positive buoyancy.
3. Our tube inlet distributors are designed for all in one injection
4. The body support are made from PVC material.
5. We use SUS 304 clamp to fix membranes on PVC pipes
6. Our slit quantity is 13,500 per 65×1000mm model

Specification:

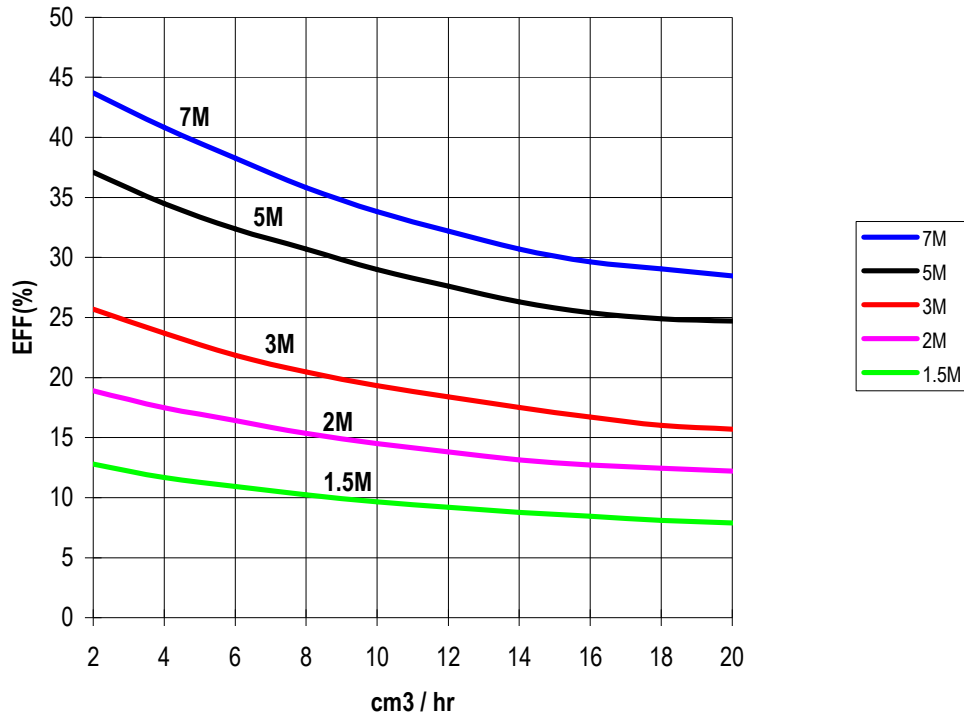

Model	dimension (mm)	Air Flow(L/min)	Membrane material	Body material	Clamp material	weight
JTD-300	300×50×3/4"PT	10-100	E.P.D.M	P.V.C	304stainless	0.45kg
JTD-600	600×50×3/4"PT	30-260	E.P.D.M	P.V.C	304stainless	0.9kg
JTD-1000	1000×50×3/4"PT	40-320	E.P.D.M	P.V.C	304stainless	1.4kg
